

demi + dash

Following its launch last summer, the Demi + Dash collection, a ClearVision proprietary brand, is expanding for the first time this June with seven new styles.

This new release introduces a series of **new colorations**, fulfilling customer demands for clear and tortoise options. The collection features **beloved eye shapes reimagined into new styles** that cater to both younger and older grade school-aged children.

This expansion not only brings fresh color combinations but also marks the introduction of the **first all-girls models** in the Flexyz sub collection. Both the Flexyz and the 180s sub collections are enriched with new additions, each crafted to support the **active and style-conscious lives** of growing kids.
